Question 10

Which number is less than 41?

- A. 14
- B. 41
- C. 44
- D. 47

Answer key

1. **A** – 23 has 2 tens and 31 has 3 tens. 2 tens is less than 3 tens, so 23 is less than 31.
2. **B** – 83 has 8 tens, the most tens of all four numbers.
3. **B** – Both numbers have 4 tens and 5 ones, so they are equal.
4. **C** – The tens are the same, so compare the ones. 2 is less than 8, so 62 is less than 68.
5. **C** – A is at 34 and B is at 37. 34 is to the left of 37, so 34 is less than 37.
6. **D** – 52 has 5 tens and 49 has 4 tens. 5 tens is more, so Liam has more.
7. **D** – The tens are the same. Compare the ones: 1 is less than 6, so 71 is smaller.
8. **A** – 48 has 4 tens and 84 has 8 tens. 4 tens is less than 8 tens, so 48 is less than 84.
9. **C** – Both have 3 tens. Compare the ones: 6 is more than 2, so 36 is greater than 32.
10. **A** – 14 has 1 ten, which is less than 4 tens. The others have 4 tens or more.

Remember:

- Compare the tens digits first.
- If the tens are the same, compare the ones digits.
- The symbols are greater than, less than and equal to.
- The open side of the greater than or less than symbol faces the bigger number.
