Answer key

1. **B** – The short hour hand is on 2 and the long minute hand is on 12. That is 2:00.
2. **C** – The minute hand is on 6, so it is half past. The hour hand has not reached 9, so the hour is 8.
3. **B** – The minute hand is on 6. The hour hand is between 11 and 12, so read the smaller number, 11.
4. **C** – Half past 3 means the hour is 3 and the minutes are 30.
5. **A** – On the hour, the minute hand points straight up to 12. The hour hand points to 9.
6. **D** – The minutes are 00, so it is exactly 7 o'clock.
7. **A** – 4:30 needs the minute hand on 6 and the hour hand between 4 and 5. Clock B matches.
8. **D** – 10:30 is half an hour after 10:00, so 10:00 is earlier.
9. **B** – The minute hand on 6 means half past. The hour hand has not reached 6, so the hour is 5.
10. **A** – 9:30 has 30 minutes, so it is half past 9.

Remember:

- The short hand is the hour hand and the long hand is the minute hand.
- Minute hand on 12 means o'clock. A digital clock shows :00.
- Minute hand on 6 means half past. A digital clock shows :30.
- At half past, the hour hand is halfway between two numbers. Read the smaller number.
- An analog clock has hands and a digital clock has numbers, but both can show the same time.
